NCERT Solutions for Class 6 English Chapter 2 Friendship

Here are the detailed solutions for all the questions from the class 6 english chapter 2 friendship textbook exercises.

Q1. What qualities of a friend are described in the poem?

Ans: A friend is someone who always stays with us, makes us smile when we are sad and gives us comfort when we are upset, listens to us, understands us, and helps us without asking for anything back. The poem also tells us that a friend shares our happiness and sadness and never leaves us alone in difficult times.

Q2. How does the poem help us understand the value of friendship?

This poem tells us the importance of friendship. Friends are those with whom we can share our secrets, worries, and dreams without thinking twice. Friends stay with together, help, and make our life happy. True friendship is all about trust, love, and knowing and helping each other. This poem teaches us that having one true friend is better than having many.

Q3. Who were the two friends in the story?

The story is about two men who called themselves close friends. They often promised each other that they would stand together in times of danger. They believed their bond was strong and that they would always protect one another.

Q4. What happened when danger came?

One day, as they were walking through a forest, they saw a bear coming towards them. Both of them were scared. Instead of helping each other, one friend quickly climbed a tree and saved himself. The other friend, who could not climb, lay down flat on the ground and pretended to be dead because he had heard that bears do not touch dead bodies. The bear came close, sniffed him, and then slowly went away, thinking he was dead.

Q4. What lesson do we learn from this story?

The story teaches that true friendship is tested in difficult times. Promises and sweet words do not make someone a real friend; actions do. A friend who leaves us when we are in danger cannot be called a true friend. The story reminds us that real friends stand by us even when life becomes hard. It also teaches us to choose our friends wisely.

Q5. Why was the friend called “lost”?

In this story, the friend is called “lost” because he was not valued or respected. He was ignored, hurt, or left behind, which made the bond of friendship break. A friend becomes “lost” when we forget their importance, do not care for their feelings, or only think of our own needs.

Q6. What is the moral of this story?

The story teaches us that friendship is delicate and should be cared for. If we neglect a true friend, we may lose him or her forever, and once lost, friendship is very difficult to regain. The moral is that friendship is based on love, respect, and trust. If we fail to respect these values, we may end up feeling lonely and regretful. This story warns us not to take friendship for granted.
