# NCERT Solutions for Class 6 English Chapter 3 Nurturing Nature

Here are the [\*\*NCERT Solutions\*\*](#) to the textbook questions of Class 6 English Chapter 3 Nurturing Nature from *Poorvi* in a simple and detailed way:

## **Q1. Why is the tree called a “friend of all”?**

A tree is called a “friend of all” because it helps everyone. It gives shade to people and animals, fruits to eat, and wood for making things. Birds build nests on its branches, and travelers rest under it. Like a true friend, the tree gives us everything without asking for anything in return.

## **Q2. How does a seed grow into a plant?**

A seed grows into a plant slowly. First, it goes into the soil. With water, air, and sunlight, the seed begins to sprout. Small roots go down into the soil, and a tiny shoot comes up. Day by day, it grows into a small plant and then into a big tree. This shows that with care and patience, even small things can grow strong.

## **Q3. What do animals find in nature?**

Animals find food, shelter, and safety in nature. Birds make their nests on trees. Rabbits dig burrows to stay safe. Squirrels run and play on branches. Every animal needs a home to live, just like humans do. Nature gives them these homes.

## **Q4. What is the message of the poem “The Friendly Tree”?**

The poem teaches us that a tree is like a kind friend. It gives fruits, flowers, and shade to everyone. It does not expect a reward. It stands strong in heat, rain, and storm but keeps giving. The poem shows that we should also learn to share and help others.
